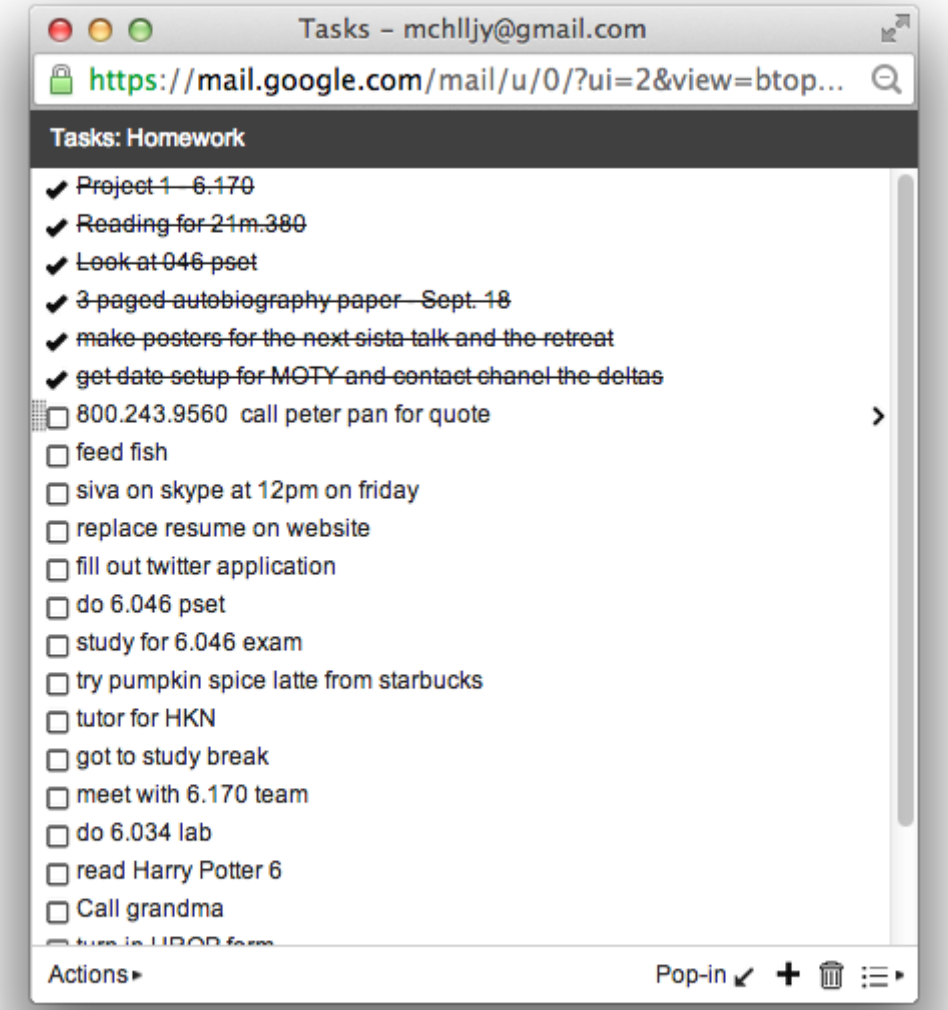
Fireplace

The TODO list that doesn't freak you out

Initial Project Pitch

Jonathan Allen, Michelle Johnson,

Rebecca Krosnick, Tyler Singer-Clark



Tasks - mchlljy@gmail.com
https://mail.google.com/mail/u/0/?ui=2&view=btop...
Tasks: Homework
Project 1 - 6.170
Reading for 21m.380
Look at 046 pset
3 paged autobiography paper - Sept. 18
make posters for the next sista talk and the retreat
get date setup for MOTY and contact chanel the deltas
800.243.9560 call peter pan for quote
feed fish
siva on skype at 12pm on friday
replace resume on website
fill out twitter application
do 6.046 pset
study for 6.046 exam
try pumpkin spice latte from starbucks
tutor for HKN
got to study break
meet with 6.170 team
do 6.034 lab
read Harry Potter 6
Call grandma
Actions
Pop-in

Key Concepts and Features

Concepts:

- Task: a note, reminder, or piece of work to be done
- Filter: a condition that must be satisfied for a task to be shown
- Classification: a commonly used set of filters possibly associated with some activity

Features:

- Create tasks with filters
- Create classifications for commonly used groups of filters
- Automatically view tasks that are relevant based on current location and time

Risks and Challenges

Design Risks

- Users spend too much time classifying tasks
  - Emphasize using broad or more general filters in UI. Limit amount of customization of classifications
- Users worry that important tasks are hidden
  - Include option to see all tasks, ignoring conditions

Implementation Risks

- Getting user location
  - Use Ruby Geocoder gem; if that fails, have user manually input location
