

# Mentor Meeting 3 Notes

**Date:** 11/22/2013

- Show select tag and custom tag form side by side
- Unauthorized requests - return http error code rather than js redirect
- Before final submission, get rid of unused routes and extra empty files
- Remove the dot in URLs like /task.6 - look into it
- Fix timing issue - probably use javascript to get user's timezone
- Move flash template (messages) to layouts folder in view
- Remove empty files/commented code
- Good use of partials
